

LED Dental Expands U.S. Sales Team
VELscope Manufacturer Poised for Continued Revenue Growth

WHITE ROCK, British Columbia—September 25, 2008—LED announced today that it is doubling the size of its sales management team in the United States. These new Regional Managers will be put in place to better support the growing number of VELscope users across the United States.

Ebon Turner, previously LED's Eastern Region Manager, will now serve as Central Region Manager. Joining LED in the position of Northeast Region Manager is Steven Budow. A 12-year veteran of the dental industry, Mr. Budow previously held a similar position with Schick Technologies. Assuming the new position of Southeast Region Manager is Brandon Bergman. Mr. Bergman, a Certified Dental Assistant for Dental Radiology, previously served as a Technology Representative with Patterson Dental. And overseeing the Southwest Region for LED is Marilyn Jeffrey, who brings with her 30 years of experience in dental sales and education. All four individuals report to David Taylor, Senior Vice President of Sales and Marketing.

Also reporting to Mr. Taylor is Angus MacDonnell, who continues to serve as LED's National Sales Manager for Canada.

"As excited as we are to be increasing our number of sales managers, we are equally excited about the caliber of the individuals composing our expanded team," said David Cox, LED Dental's president and chief operating officer. "We look forward to their significant contribution as we continue to grow our sales and pursue our mission of facilitating the earlier detection and prevention of oral cancer."
